

Dated: 23.01.2015

Subject: Latest developments regarding progress of various activities of Society.

Dear Sir/ Madam,

In the last update regarding Society (uploaded on Society website), it had been conveyed that the case for environmental clearance will be forwarded by the State Expert Appraisal Committee (SEAC) to the State Level Environment Impact Assessment Authority (SEIAA) after Environment Impact Assessment (EIA) study. The SEAC issued Terms of Reference (ToR) on 14.08.2014 for conducting EIA study for three months i.e. from 01.10.2014 to 31.12.2014. However, the case was represented before SEAC for cutting short this period and accord the approval so that development activities can start early. After deliberations, the SEAC decided to accept the request and allowed to submit the EIA report using the baseline data from the monitoring/study already started w.e.f. 01.09.2014 to 30.11.2014. After conducting EIA study, the data was submitted to SEAC and the case was considered by the SEAC in its meeting held on 19.12.2014. After considering the presentation, the SEAC forwarded the case to SEIAA for grant of Environmental Clearance with Silver Grading.

The case was considered by SEIAA in its meeting held on 09.01.2015 and a presentation regarding features of the project was given before SEIAA. After considering the presentation and recommendation of SEAC, **the SEIAA granted Environmental Clearance with Silver Grading.**

Further the agency for carrying out the developmental works of sewerage, water supply, road work etc. has been finalized and the ground activities will commence by the next week. The photographs of the progress of works will be updated on the web-site and members can get updated about the progress of developmental works.

This is for kind information of members.

Regards

(Partap Singh)
Secretary
